

REIMAGINING EDUCATION

WITH

kidsloop

Education for Tomorrow

Who We Are ● ●

Deliver
content
Collect
data, and
Assess
children
in real time

KidsLoop is a personalized learning platform, bringing you CLMS Solutions that use advanced AI-technology and digitized curriculum to enhance the traditional role of education in the Government School Networks. We help in creating digital learning spaces and providing students with the tools they need in order to become successful learners both in the classroom and in practical lives.

We believe that Digital learning experiences are undoubtedly the future of education, and it is crucial for schools to adopt technology in ways that benefit both them and their students. The effective use of digital learning tools in classrooms can increase learner engagement, help teachers improve their lesson plans, and facilitate personalized learning paths for every student.

Our Solutions ●

Through our platform, we are enabling AI enhanced education that has benefits for students, parents and teachers. Our Educational Solutions include:

LMS Learning Management System

A centralized hub to organize teachers and students, assign lessons and schedule classes

CMS Content Management System

A completely Digitized Curriculum Library of interactive lesson plans and materials

Data AI Data-Driven Reporting & Assessments

Powerful assessment tools and time-saving, automated reports with valuable insights for teachers

Digital Classrooms

Digital gadgets like LED screens and tablets to deliver lessons effectively and to create collaborative learning environments

Mobile Application

For students to complete their homework assignments, and for parents to monitor their child's progress in class.

“

AN ALL-IN-ONE
SOLUTION PROVIDING

Education for
Tomorrow
Delivered
Today

”

We offer three core services

CONTENT

Digital Curriculum

Interactive and completely digitized Lesson Plans, covering numerous topics and supported with Teaching Guides, Assessments, Activities and Videos to make your lesson delivery engaging and effective

Align Milestones

You can link your curricula to outcomes and milestones to help track the student's progress

DELIVERY

In-Class Lesson Delivery

Smart LED screens for students to complete digitally interactive tasks in groups or individually

Homework

Once a student has been added to their school, they can use the KidsLoop Student app to complete their homework.

DATA

We believe that **“No one child is the same”** We learn from individual learners to accurately select classes and refine the best way for them to learn.

Improving Learning Outcomes

Use detailed reports as learning trackers for students to improve individual performance.

Assessments

Utilize score assessments to mark the completion of Learning Outcomes to compile student progress and learning pathway.

Milestones

You can track student progress towards learning milestones and adapt your lessons accordingly.

Analytics and Reports

Our data reporting provides key metrics for administrators, teachers, and parents. Learner tracking and analysis tools offer an in-depth look at students' development,

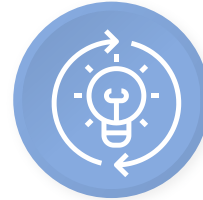

How do you benefit from our education solutions?

Schools & Teachers

Simplified Administration

Our solutions are designed with all users, regardless of their IT skills, in mind and thus feature user-friendly interfaces. They simplify processes, making it easy to add or remove courses, control user options and controls, import or export files, and perform a host of other administrative functions.

Personalization of learning

Lecturers can adopt a student-centered pedagogical model and shift focus on each learner's needs. In other words, it enables lecturers to create unique learning paths for students and deliver content that offers tailored learning experiences.

Easy tracking and reporting

Lecturers can access data such as course download statistics, completion reports, course activities, student performance data and learning path statistics, allowing them to pinpoint gaps in student knowledge and take remedial measures to improve performance. The data also uncovers the shortcomings in the courses, which can be addressed to improve teaching effectiveness.

Save Valuable Time

Marking exams or grading students can be accelerated as checking objective tests becomes an automated process.

How do you benefit from our education solutions?

Students & Parents

Improved performance

Our Digital Learning tools & technology enable students to develop effective self-directed learning skills. They also allow for personalized attention for each student which helps in improving individual performances significantly.

Increased engagement & Interactivity

Our solutions are designed to help sidestep the boredom of conventional classrooms. Our technologies improve students' engagement in the learning process, and help them become less dependent on the lecturers.

Flexibility and accessibility

With our CLMS technology, lecturers can leverage different pedagogical approaches such as blended learning, storytelling, and social learning. In addition, we provide numerous options on how to learn like videos, games, webinars, and virtual classrooms

Better involvement for Parents

Our LMS system provides clearly defined roles for users, including parents. The parent can also use the mobile app to access their child's performance, attendance, and also communicate with the teacher or other parents, strengthens the parent, teacher and student relationship, keeping learners on track towards better performance.

A complete solution for your needs

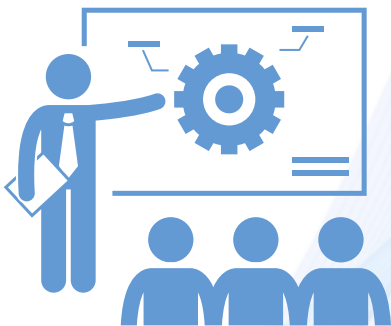

It is a completely customizable, white-label product with end-to-end CLMS solutions designed to meet your schools' unique requirements.

Hardware

Hardware leasing facility

- Interactive LEDs
- Tablets
- Multimedia Projectors

Training

- Complete platform orientation for school administrators, teachers, parents and students
- EdTech Teachers training program
- Remote training facilities

Support

- Scheduled campus visits
- Pedagogy & Technology Support for admins and teachers
- On-call support for students and parents
